Grand Admiral Ronin steps down, Astatine appointed as the new Fleet Commander!!!

Yes, it is true. After almost 10 years of outstanding duty in the role of FC, GA Ronin, founder of the Emperors Hammer strike fleet, decided to retire and give up his position. GA Ronin has been great leader and he earned respect and allegiance of the vast majority of fleet personnel, and his recent decision was quite a surprise for the general membership. "This is probably the biggest piece of news since probably the rDB incident, in my opinion" stated VA Stele Pellaeon in his speech to crew of the SSSD Sovereign. And indeed we are speaking about one of the most important events in the history of EH.

Ronin's successor is his second in command and former SA Astatine. According to official sources, SA Astatine was promoted to GA during recent CS meeting and his ownership in the club was increased to 40%. Astatine himself will have full FC authority starting with 7th of January.

In reaction to Astatine's appointment to position of FC, FO-TCCOM/HA Cyric has assured the fleet: "...there will not be any major changes within the fleet with SA Astatine being named FC".

Personnel of entire fleet are now hoping that FC Astatine will lead them to new glorious victories and achievements. Only time will show if their hope will be fulfilled...
